

**POSSIBILITIES
UNLIMITED**

Are you considering an apprentice for your business?

Running a business is challenging. Finding the right apprentice can be just as difficult. Wouldn't it be great to mitigate the risk and find a candidate who is work ready, eager to learn, and Certificate I qualified?

Community Solutions can help you do just this. We employ apprentices and trainees and can support you to take them on in your business. By handling the process end to end, we take the hassle out of taking on a trainee or apprentice.

We have secured Queensland Government funding to deliver a Certificate I in Automotive Vocational Preparation to support the local automotive industry. Candidates will undertake 13 weeks of paid full-time training at TAFE, including 3 weeks of work placement, with insurance and PPE covered.

Benefits to Employers:

- Work-ready apprentices
- Quicker revenue returns from apprentices
- Work Cover is pre-arranged
- PPE supplied

Community Solutions are seeking expressions of interest from employers to host a candidate for work experience.

We would welcome the opportunity to visit your business and give you an overview of how our program can work for you.

Register your interest to become a host employer.
