

# Become qualified for a job with an apprenticeship or traineeship!

Make a positive change for your future by getting qualified in your chosen field. An apprenticeship or traineeship offers you an opportunity to earn while you learn practical skills so you can build a lifelong career.

## Benefits of an apprenticeship or traineeship

- Build skills for a lifelong career
- Earn while you learn valuable skills
- Gain a nationally-recognised qualification
- Tailored training specific to your host employer's workplace
- Continuous support from us and your host employer to ensure you are excelling throughout your training

Solutions**

## Who can do an apprenticeship or traineeship?

Anyone! You can simply be looking to start a career, change careers or learn skills in a different field. At Community Solutions, we also offer programs specific for school leavers and women looking to start an apprenticeship or traineeship.

## Industries and completion time

Apprentices are trained in skilled areas such as construction, engineering, manufacturing and electrical. It typically takes 3 to 4 years to complete.

Trainees are trained in vocational areas such as business, information technology, community services, individual support, warehousing and civil construction. It typically takes 1 to 3 years to complete depending on the traineeship.

## How to become an apprentice or trainee

1. Identify the right apprenticeship or traineeship that aligns with your skills and passions.
2. Apply for a Community Solutions apprenticeship/traineeship online.
3. Join us for an interview with our team.
4. Have an interview with your potential host employer and complete the pre-employment assessments to set yourself up for success.
5. Congratulations. Start your job!

## Begin your journey to becoming an apprentice or trainee!
